SATURDAY'S BANK STATEMENT.

WALL STREET, SUNDAY, March 2, 1873. The unseasonable stringency in the money market has been the cause during the past week of what may be regarded as an unseasonable tumble in the stock market. In other words, the existmore peculiar to the months of October and Newmber has culminated in a regular Fall

at the Stock Exchange. Theorists they may be who will assign all the depression and excitement of the week to the demoralization occasioned by the panic in Pacific Mail; but, had money been easy, the hundreds who were lugging their burden der the lead, and Stockwell and his friends might ave yet triumphed over the long series of misunes which attended their speculation ever since the stock began receding from par. The dis-couragement of weakening margins and a hardenmoney market was too much for

THE AVERAGE "BULL" In Pacific Mail, and as one after another began to relax his grasp upon his long-held shares, and as still ether stock began to pour in upon the brokers of Mr. Stockwell, in the process of delivery upon guarantees, the market broke down under the accumulation, and the price fell to 55%, or 15 per cent since the previous Monday morning. It is dimoult to say, furthermore, how long the "bulls" might have maintained the contest against tight money had not Congress commenced AN INVESTIGATION

into the charges that bribery had been used by the company to secure the legislation last Winter which granted the line an additional annual subsidy of half a million dollars. This movement had a further demoralizing effect by inspiring a fear that Congress might feel justified in withdrawing the subsidy were the charges sustained. The break in Pacific Mail caused an even larger decline in its fellow stock, Panama, which, during the week, went of from 123 to 95, but reacted at the close to 410. Curiously enough the

PACIFIC MAIL TUMBLE was followed by easier money and, after the first excitement and depression, by a stronger feeling in the stock market. It appeared to be the vicarious sacrifice offered up on behalf of the wearled and discouraged "bulls" all over the street. The relaxation in money toward the close was exemplified in the prevalence of such compar-atively cheap rates as 1-32 per cent after earlier dealings at as high as 1/2 as a common thing and 1/4 per cent as an occasional

DAILY CLIMAX. In fact, loans were made on Saturday at as low as I per cent, but before three o'clock the same after-Bo far as the general situation indicates, and quiet rumors intimate, the money cliques, the "bear" cliques and the gold cliques will make one more desperate demonstration upon the markets before they reverse their positions. In this connection it is said the money clique will make a terrific "squeeze" within the next few days, and that at the same time the "bears" will "jump" upon the stock market.

THE GOLD CLIQUE commenced the feint on Saturday, when they drove the quotation up to 115%, than which, with quotation in Wall street. Stress is laid upon the current enormous imports, but the clique seem shilvious of the stream of exports. Up to last week the imports at New York, since January 1, were about \$64,000,000, and the exports therefrom \$39,000,000. Now, New York imports about twothirds of all the imports of the country, but experts less than two-fifths of all the exports of country, and the discrepancy is growing wider and wider every year. Could we get at all the statistics of all the ports we should find that since the 1st of January, er since the gold cilque have undertaken to run up the market, the exports of the United States have actually exceeded the imports. According to the figures and ratios already mentioned, the exports have been about \$97,500,000, and the imports \$96,000,000. So much for the argument of the gold based upon the heavy imports at the port of New York. As for the money clique, they are likely to be deprived of any further help on the part of the Treasury, as the debt statement shows that the greenbacks are now down to the level of

Last Summer—viz., \$356,000,000.

THE BANK STATEMENT. The weekly statement of the associated banks is quite favorable so far as the week's banking move-ment is concerned, the gain in actual reserve having been \$586,400, while the contribution to the net reserve is over a million and a half dollars, so that the deficiency in legal reserve is reduced to a mat-ter of a few hundred thousand dollars. The chief changes for the week are a contraction of about five and a half millions in leans and a decrease of nearly four millions in deposits, from which the in-ference is fairly taken that the less in deposits has been the consequence not so much of a movement of currency to the interior as of a curtailment of street banks upon Pacific Mail shares being in themselves sufficient to account for a good part of

has been the result of the prepayment by the gov-ernment of the March interest on the ten-forties. The decrease in greenbacks is explicable by the "locking-up" operations of the speculative combi-nations. The statement compares with its predecessor of last week as follows: -

Bales-Flour, Wheat and Corn Dull-Provisions Steady-Groceries Quiet-Petroleum Easier-Spirits Turpentine Nominal - Rosin Steady - Whiskey

SATURDAY, March 1-6 P. M. Trade has been emphatically dull in nearly all its departments during the past week, and the general tendency of prices has been toward a lower basis, though few actual radical changes have taken place. The export movement in breadstuffs remains at a stand. Though prices have settled considerably during the week they are still too sight sterling 109 a 109%, there is no more inflated high to admit of shipments with and leave any margin. The difficulty in obtaining freight roo is almost as great as it has been during the past several weeks, but with light offer ings rates are scarcely so high, Business has been very light, both on and off 'Change, and in the leading articles of export scarcely anything has been done, prices at the close of the week being almost wholly nominal. At the Cotton Exchange business has been ex tremely light, and the market for spot cotton closed little better than nominal. At the Produce Exchange flour and wheat have been dull and nominal all through the week, and closed without improvement. Corn has been dull and heavy, and prices have settled somewhat, closing very quiet at the prices quoted below. Provisions have been comparatively firm, and pork has been pushed up a peg almost every day, the market leaving off firm. Groceries have been quiet throughout most of the past week, and closed to-day (Saturday) more or less nominal. Petroleum remained dull, with easier prices current. Spirits of turpentine closed nominally firmer, while rosin was quiet, but steady. Whiskey was in moderately fair demand, but at easier prices.
